Over the years, dedicated mum of four Kay Poelen developed her very own fun style of natural parenting. Early on, she discovered the many advantages of using a baby carrier: skin contact, security, a practical way to have your child close while keeping your hands free. She brought an age-old method of baby carrying into the 21st century, by designing fashionable, comfortable baby carriers made of high quality fabric. In fact, she designed a complete range of ergonomic baby carriers, so there's a perfect fit for everybody's needs. Her dedication serves only one purpose: to have as many babies and parents enjoy a more relaxed way of life using a baby carrier!
